

Valorising waste wood from landscape conversion and maintenance work (LCMW)

Getesnippers

Arthur Hinsch, ICLEI Europe
(in coordination with Interleuven)

Cultural Heritage = Sustainable Heat?

Agrobeheercentrum 2020

Houtland Regionaal Landschap 2020

Interleuven 2020

Good Reasons for it

- Import of biomass feedstock a lot higher than production
- Biomass from LCWM (landscape conservation and maintenance work) as a regional and sustainable alternative
- Efficient use of wood "waste"
- And another factor: acceptance

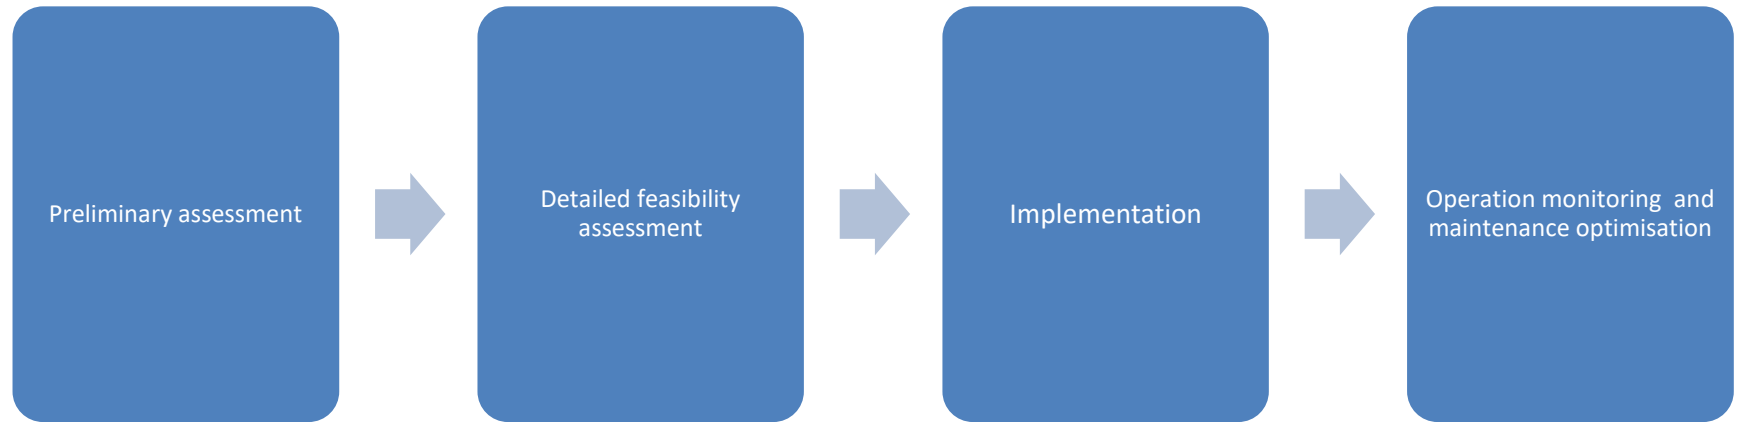

Kreis Steinfurt 2013
