

Analyses NECPs

CAN Europe

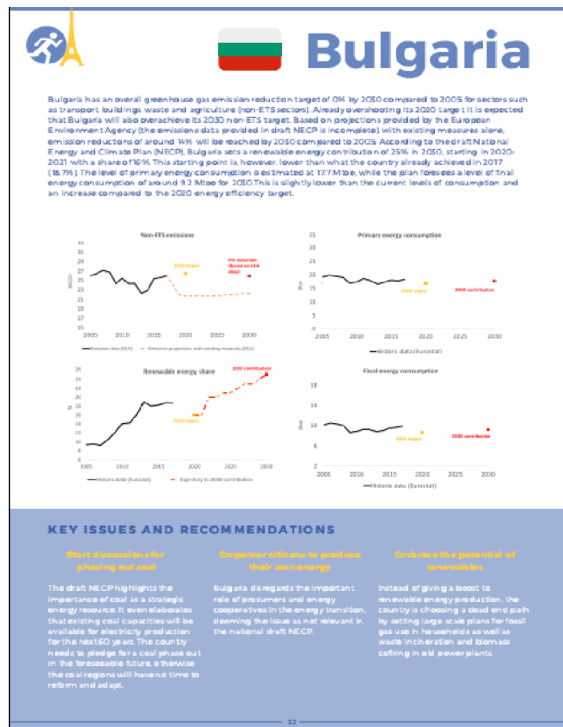

Brussels 11 June 2019

Time to pick up the pace. Insights into the draft NECPs

- Collects the views of national stakeholders on the draft NECPs of 24 countries
- Launched mid April 2019

Analysis per country

- Analysis of GHG, energy efficiency and renewable energy targets and contribution
- Key issues and recommendations (GHG emissions, energy efficiency, renewable energy, transport, biomass, energy communities, prosumers, fossil fuel subsidies, fossil fuel infrastructure, etc.)

Conclusions

- Overall, the draft Plans as they stand do not live up the Paris Agreement goals
- BUT, there is still time to improve them
- Our recommendations
 - Increase the level of climate ambition
 - Go beyond the minimum requirements for renewable energy and energy savings
 - Develop robust policies and measures to underpin the delivery of the energy transition
 - Plan for phasing out coal
 - Ensure climate-proofing of new energy infrastructure
 - Shift financial flow away from fossil fuels
 - Ensure public participation and debate

Rank	Country	Stated plan to phase out coal over the NECP?	NECP phaseout date	2019 installed coal capacity [Net GW]*	NECP 2030 installed coal capacity [net GW]**
1	France	✓	2022	3.0	0.0
2	Ireland	✓	2025	0.9	0.0
3	Italy	✓	2025	8.1	0.0
4	Netherlands	✓	2029	4.8	0.0
5	Finland	✓	2029	2.0	0.0
6	Portugal	✓	2030	1.9	0.0
7	Denmark	✓	2030	2.8	0.0
8	Austria	✓	Vague	0.6	0.0
9	UK	×	—	11.6	0.0
10	Sweden	×	—	0.1	0.0
11	Spain	×	—	9.4	0-12***
12	Hungary	×	—	1.0	0.2
13	Croatia	×	—	0.3	0.2
14	Slovakia	×	—	0.6	0.6
15	Slovenia	×	—	1.0	1.0
16	Greece	×	—	4.1	2.7
17	Romania	×	—	5.5	3.2
18	Bulgaria	×	—	4.7	4.7

20	Germany	×	—	44.4	17.0
21	Poland	×	—	26.9	22.9

Coal NECP analysis

- The report reveals that according to the draft NECPs, there would still be 60 GW of installed coal capacity in the EU in 2030, a reduction of only 58% compared to current levels (143 GW).
- 11 Member States do not plan to phase out coal by 2030, instead most of them show very little or no coal capacity decrease vs. 2019.
- Yet, Member States with no plans to move away from coal are benefiting from various EU schemes intended to support the energy transition away from coal.
