SOCIETAL CHANGE**

SYSTEM OPTIMIZATION

CAPACITY BUILDING & SUPPORT

- Regulatory & policy support
- Financial & in-kind support
- Dedicated tools & platforms (one-stop-shops, online mapping of RES potential, etc.)

LINK TO BROADER SOCIETAL CHANGE

- Desire to build more participatory/democratic processes for citizen involvement #energyinpeopleshands
- Addressing socio-economic disparities
- Making cities more resilient & independent

NEW GOVERNANCE MODELS

- Local authorities identified as potential members of RECs/CECs
- Hybrid forms of civic-public partnerships emerging
- Belgium: The examples of Eeklo, Mouscron and Charleroi

SYSTEM OPTIMIZATION

- Establishing synergies between local economic operators
- Addressing various prosumer profiles
- Fostering prosumerism across multiple energy carriers
- Better balancing / optimizing production and consumption
